

# eBookAdvantage Sunset FAQ's

## How do I access my book(s) on Expert Consult?

Signing up for an account on Expert Consult is quick and easy.

- Visit Expert Consult (<https://expertconsult.inkling.com/>).
- Click the 'Sign Up' button.
- Fill out your credentials, then click 'Sign Up' to register your information.

Once you've created your account, enter the PIN code(s) you received in the 'Redeem a Book Code' box to gain access to your title(s). If you received multiple codes, please redeem each code separately. You access your redeemed book(s) by clicking "My Library" at the top of the page.

## The provided PIN code doesn't work. Who do I contact?

Please visit the Expert Consult support hub (<http://service.elsevier.com/app/home/supporthub/expert-consult/>) to file a help ticket. Please include the title of your book and your PIN code so we can begin troubleshooting your issue.

## Why will I lose access to my book until it becomes available on Expert Consult until September 2017?

The books on Expert Consult are enhanced versions of the original print book; they have been rebuilt from the ground up to take full advantage of digital devices like the iPad, iPhone, and the modern Web, going beyond the flat PDF format. Because of the way these enhanced eBooks are built, it can take up to two months to create the final version.

## My eBookAdvantage access was through a group or a shared username. How do I access the titles?

eBookAdvantage was for individual use only, as is Expert Consult. If you previously accessed eBookAdvantage through a group or a shared username, you will need to create your own account on Expert Consult using the directions above. Elsevier is offering a discount of 35% on a customer's entire order. Use promo code SAVE35 at checkout to receive a 35% discount. This promo code is valid on both [us.elsevierhealth.com](http://us.elsevierhealth.com) and [expertconsult.inkling.com](http://expertconsult.inkling.com).

## How come I no longer have access to my book?

A small number of eBookAdvantage titles were not made available on Expert Consult.

This is because either:

- These books have a new edition available.
- These books are no longer in print or sold by Elsevier.

Many of the eBookAdvantage titles have comparable versions on Expert Consult. If you purchase or activate a book on the Expert Consult site, it will remain yours forever and won't be removed from on-line access once the next edition is published (or if the current edition is no longer for sale by Elsevier).

## What options do I have to get online access and how do I obtain access?

Elsevier is offering a discount of 35% on a customer's entire order at either both [us.elsevierhealth.com](http://us.elsevierhealth.com) and [expertconsult.inkling.com](http://expertconsult.inkling.com). Use promo code **SAVE35** at checkout to receive a 35% discount towards the purchase of new titles.
